Applicants Investigation System

Client Major financial group

Development of web-based Applicants Investigation System to support the financial activity

RESULTS

The large number of reports generated by Codea proved to be of help in increasing the efficiency of its activity: expense reports, activity reports, flowcharts containing activities in course, terminated or abandoned.

Biggest ROI: By using Codea, our client greatly achieved important reductions in and tight control over client investigation-related costs. The integrated Software Solution provided by Codea has delivered measurable benefits:

- Improved and controllable investigation costs**
- Significantly reduced report management time**
- Improved portfolio risk analysis**
- Reduced decision turnaround time**

Codea Advantage

Backed by a 6 -year proven track record, Codea is a premier provider of application development & maintenance services to a large client base in Western Europe and the USA. Codea brings together top technical talent, positive thinking, strong resources and a professional, CMMi-based approach to software development, for a high added-value to our clients' businesses.

Benefits

- Improved and controllable investigation costs
- Reduced report management time
- Improved portfolio risk analysis
